NEWSLETTER – May–June Edition

In the heart of Namibia, where adventure begins, and stories are made.

A WARM WELCOME FROM ALL OF US.

Warm greetings to all our hunting friends around the world. Winter has set in here in Namibia and the bushveld is crisp, quiet, and filled with challenges. Whether you're planning your next hunt or just following along with our updates — welcome, and thank you for being part of our journey.

Field Update: Cold Weather, Big Adventures

The past few weeks have kept us on our toes. A challenging cheetah hunt put our tracking skills to the test. With so much grass growth this year, it's nearly impossible to see spoor or follow movement. Add bitterly cold weather, and it becomes the kind of hunt that demands every ounce of focus — and grit.

Hunters from Croatia and Germany

We've had the pleasure of hosting hunters from Croatia and Germany, and it's always an honour to share the beauty of the Namibian bushveld with people from around the globe.

One of our proudest moments?

A 12-year-old guest took her first-ever Springbok with absolute professionalism — a moment her family (and we!) will never forget.

10 Hunters, 10 Warthog, 10 Days – South Africa

Hendrik is on his way to South Africa for our upcoming 10-day / 10-hunters / 10-warthog experience. Preparations are in full swing, and we're looking forward to an incredible time ahead. If you're interested in booking a warthog hunt, please visit our website for the full package itinerary with dates.

Smile of the Week

Our smile this week comes from one of our youngest hunters, proudly posing with her springbok. Confidence, calm, and pure courage. A memory to last a lifetime.

A Namibian Winter

This time of year brings crystal-clear skies, frosty early mornings, and golden grasslands that shimmer in the low winter sun. It's the season where silence stretches across the bushveld — and every sound becomes a clue. The cold may bite, but the rewards are deep, raw, and unforgettable.

Hunting Tip of the Week

"Track with patience, not pressure."

In thick grass and cold conditions, don't chase the trail. Take your time, read the bush, and let the movement come to you.

Until next time — keep your powder dry and your spirit wild.

Warm regards,
Hendrik, Trudi & the Team
